## **Novo Resources Announces Filing of NI 43-101 Technical Report for its Beatons Creek Gold Project, Western Australia**

**VANCOUVER**, May 23, 2013 - **Novo Resources Corp.** (the “**Company**”) (CNSX: NVO; OTCQX: NSRPF) is pleased to announce that it has filed a technical report prepared pursuant to National Instrument 43-101 (“NI 43-101”) related to its May 1, 2013 news release announcing the maiden resource estimate for its Beatons Creek Gold Project, Western Australia.

The independent technical report, entitled “Technical Report and Resource Estimate, Beatons Creek Project, Pilbara Region, Australia” (the “Technical Report”), dated May 1, 2013, was prepared for Novo Resources by Patrick Huxtable (RPGeo MAIG), a qualified person as defined by NI 43-101, of Tetra Tech, Perth, Australia. The Technical Report is available through the Internet under the Company’s profile on the Canadian System for Electronic Document Analysis and Retrieval (SEDAR) at [www.sedar.com](http://www.sedar.com) (filing date: May 23, 2013) and on the Company’s website at [www.novoresources.com](http://www.novoresources.com).

### **About Beatons Creek**

The Beatons Creek Tenements cover extensive exposures of the Beatons Creek conglomerates, a series of Archaean age pyritic conglomerates hosting gold mineralization similar to that of the Witwatersrand Basin in the Republic of South Africa. Shallow gold reefs were first identified and mined in this area beginning in the late 1800’s. Novo Resources’ current drill program is the first modern, systematic exploration on the property. Tenements comprising the Beatons Creek Gold project include three mining leases in which Novo Resources is earning a 70% interest from Millennium Minerals Ltd., 560 square kilometers of prospecting and exploration tenements in which Novo Resources is earning a 70% interest from the Creasy Group Pty. Ltd. and three prospecting tenements in which Novo Resources holds a 100% interest.

### **About Novo Resources Corp.**

Novo’s focus is to evaluate, acquire and explore gold properties. The Company presently has joint ventures earning a 70% interest two exploration properties, Beatons Creek and Marble Bar, situated in Western Australia. For more information, please contact Leo Karabelas at (416) 543-3120 or e-mail [leo@novoresources.com](mailto:leo@novoresources.com)

On Behalf of the Board of Directors,

**Novo Resources Corp.**
