The Company intends to use the net proceeds from the Increased Offering primarily for exploration and development at the Beatons Creek project and for general corporate and working capital purposes.

The closing of the Increased Offering is expected to occur on or about April 27, 2017 and is subject to receipt of all necessary regulatory approvals including the approval of the TSX Venture Exchange. The Units, including all underlying securities thereof, and any broker warrants issued with respect to the Increased Offering will be subject to a four month hold period in accordance with applicable Canadian securities laws.
